FMS – 107: COMPUTER APPLICATIONS

Objectives:

It deals with basic concepts and quickly develops intermediate skills and techniques through practical hands on computer. It creates an understanding of MIS for future managers.

COURSE	Contact Lectures
1. Fundamental and computer Application: Computer application, Hardware, Software, Languages of computer, Operating system.	8
2. MS-Word: File, Edit, Format, Drawing, Tools, Tables, Practicing on Cut-Copy Paste, merger, Letter Writing, Page Setup.	8
3. MS.Excel/Basics: Creating Worksheet, Entering and Editing Text, Numbers and formulas cells lookup tables, auto fill. Rearranging work sheets: Moving, copying, sorting, inserting deleting cells, deleting & parts of work shared, reaction at formulas to worksheet design changes. Excel formatting: Excel page setup. Auto format, manual format using styles; format painter. Changing font sizes and attributes. Wrapping text, using border buttons and command. Working with graphics: Creating and placing graphic objects, resizing positioning graphic	12
4. Power Point basics terminology colour scheme: Power Point templates, getting started. Creating presentation: Auto content wizard, inserting, deleting slides. Working with text: Editing and moving text, spell checking, finding and replacing text; formatting text-aligning text. Show Time: Arranging previewing and rehearsing slides, transition and Build effects, Deleting slides printing presentation elements creating overhead transparencies; sharing presentation tiles with other.	11
5. MS-ACCESS (Data Base Managing System): Preparation of database corresponding to management practices such as level information farm-level information. Agro-climatic zone information, etc. Creating database and tables: Creating database with and without wizards, access tables wizard, field names, data types and properties, adding deleting, renaming and moving fields, resizing fields, primary key fields, indexing fields. Forms: The form wizard, saving modifying forms, designing forms. Entering and Editing data: Typing, adding records, undo, correcting entries, global replacements moving records. Finding Sorting and Displaying Data: Queries and Dynasts, creating and using select queries, multiple search reformatting dynasts, multilevel sorting, showing all records after a query Cross tab queries. Printing Reports, Forms Letters and labels: Simple table, form and database printing. Manual reporting and modifying properties in reports, saving printing, mailing labels, changing label design.	12
	8
Practical: A. Make new files and use of cut, copy, paste, merger. B. Creating and formatting tables using work excel. C. Creating and managing data files of agriculture management system. D. Use of Internet for World Wide Web browsing. E. Sending and receiving e-mails through e-mail POP 3 account. F. Creating worksheet and different types of graphs using excel. G. Creating slides and presentation using PowerPoint. H. Study of small and submission of report of the system in terms of suitable system.
