

Biological Database Search and Retrieval of Protein Sequence

Dr. Pradeep Kumar
Associate Professor
Department of Biotechnology
VBS Purvanchal University, Jaunpur

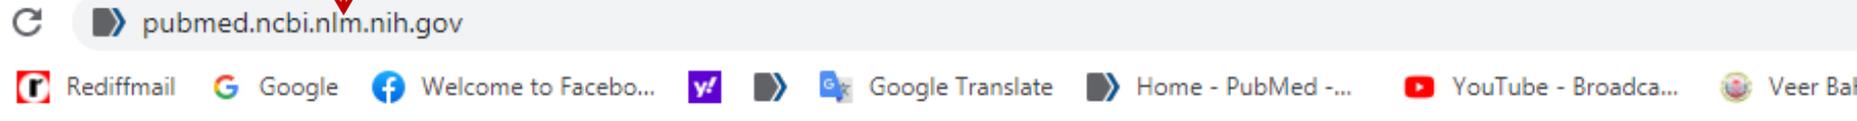

NCBI Protein

<https://www.ncbi.nlm.nih.gov/protein>

- The National Center for Biotechnology Information Protein database has sequences from
- GenBank (<https://www.ncbi.nlm.nih.gov/genbank/>)
- RefSeq (<https://www.ncbi.nlm.nih.gov/refseq/>)
- TPA (<https://www.ncbi.nlm.nih.gov/genbank/tpa/>)
- SwissProt(<https://www.uniprot.org/uniprot/?query=swiss+prot&sort=score>),
- PIR(<https://proteininformationresource.org/>),
- PRF(<https://www.prf.or.jp/aboutdb-e.html>)
- PDB (www.rcsb.org/pdb).

Step 1

Open any web browser and type/enter pubmed.ncbi.nlm.nih.gov in the address bar and Click enter ↵

The Google logo, consisting of the word "Google" in its characteristic multi-colored font (blue, red, yellow, blue, green, red).

Search Google or type a URL

pubmed.ncbi.nlm.nih.gov homepage will open

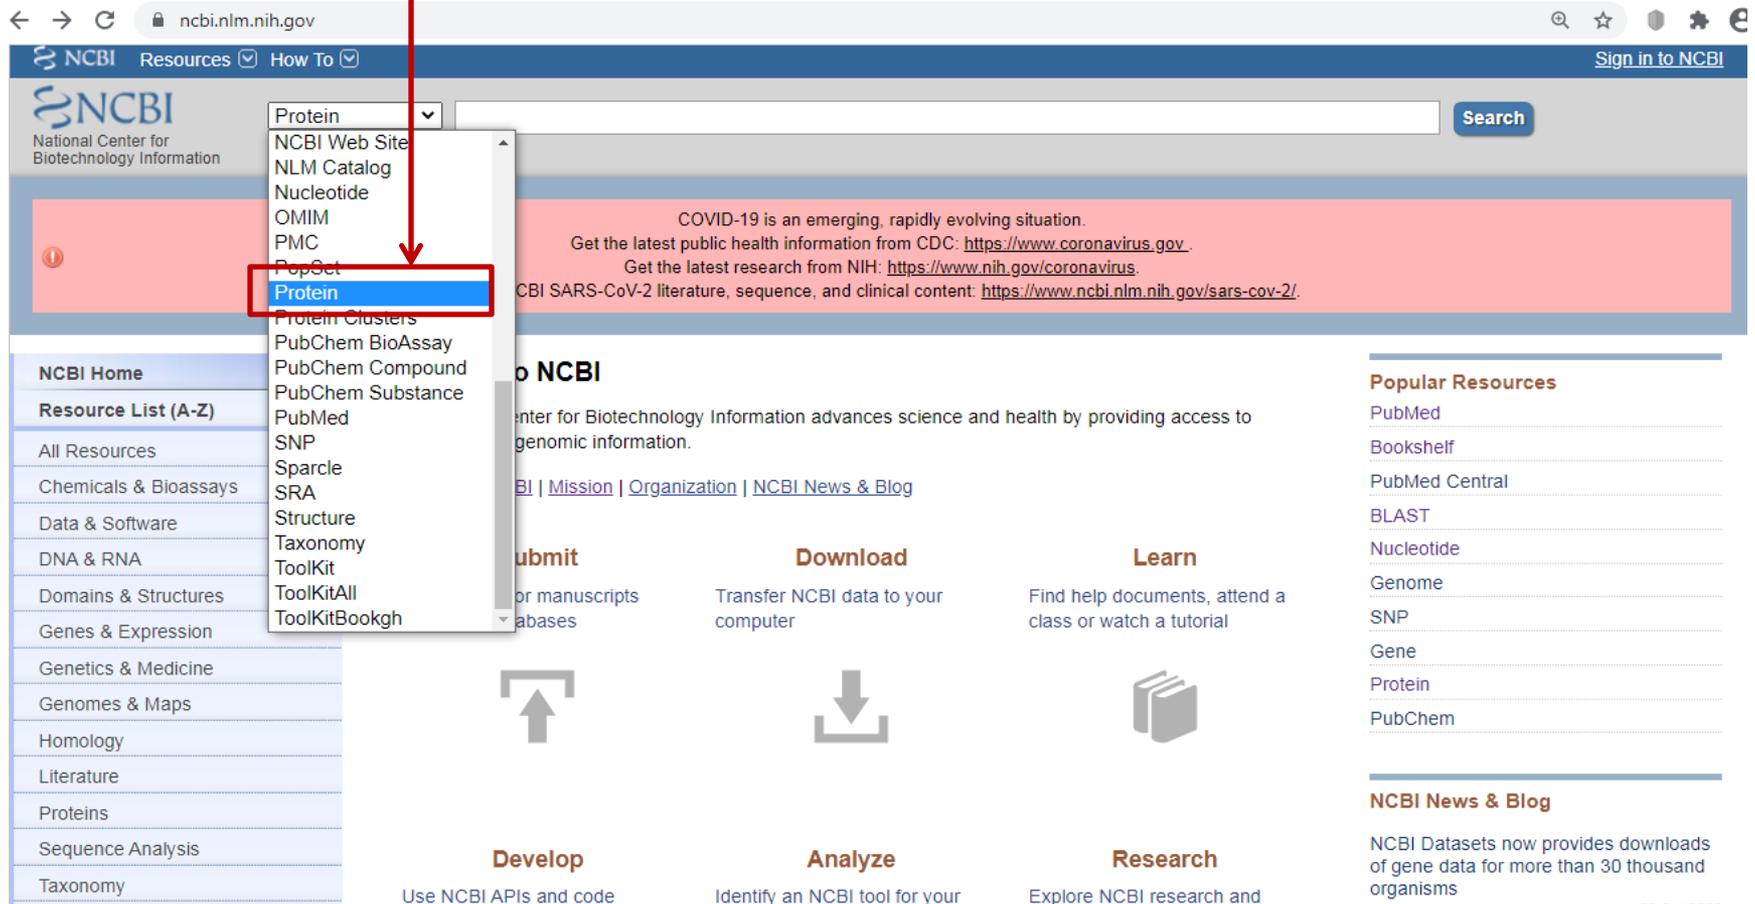

The screenshot shows the NCBI homepage with a prominent red banner at the top. The banner contains the following text: "COVID-19 is an emerging, rapidly evolving situation. Get the latest public health information from CDC: <https://www.coronavirus.gov>. Get the latest research from NIH: <https://www.nih.gov/coronavirus>. Find NCBI SARS-CoV-2 literature, sequence, and clinical content: <https://www.ncbi.nlm.nih.gov/sars-cov-2/>".

Below the banner, the page is divided into several sections:

- Left Sidebar:** A vertical menu with the following items: NCBI Home, Resource List (A-Z), All Resources, Chemicals & Bioassays, Data & Software, DNA & RNA, Domains & Structures, Genes & Expression, Genetics & Medicine, Genomes & Maps, Homology, Literature, Proteins, Sequence Analysis, Taxonomy, Training & Tutorials, and Variation.
- Center Section:**
 - Welcome to NCBI:** The National Center for Biotechnology Information advances science and health by providing access to biomedical and genomic information. Links: [About the NCBI](#) | [Mission](#) | [Organization](#) | [NCBI News & Blog](#)
 - Submit:** Deposit data or manuscripts into NCBI databases. Icon: Upload arrow.
 - Download:** Transfer NCBI data to your computer. Icon: Download arrow.
 - Learn:** Find help documents, attend a class or watch a tutorial. Icon: Open book.
 - Develop:** Use NCBI APIs and code libraries to build applications. Icon: Stacked blocks.
 - Analyze:** Identify an NCBI tool for your data analysis task. Icon: Network graph.
 - Research:** Explore NCBI research and collaborative projects. Icon: Microscope.
- Right Section:**
 - Popular Resources:** PubMed, Bookshelf, PubMed Central, BLAST, Nucleotide, Genome, SNP, Gene, Protein, PubChem.
 - NCBI News & Blog:** NCBI Datasets now provides downloads of gene data for more than 30 thousand organisms. 08 Oct 2020. NCBI Datasets now offers Gene tables: Recent enhancements in Genome Workbench version 3.5.0. 08 Oct 2020. New Features Version 3.5.0 of Genome Workbench NCBI's sequence annotation.

Step 2

Click on dropdown menu(All databases) and select protein database by clicking on Protein

The screenshot shows the NCBI website interface. A dropdown menu is open, displaying a list of databases. The 'Protein' option is highlighted with a red box, and a red arrow points to it from the text above. The website header includes the NCBI logo, navigation links, and a search bar. A COVID-19 notice is visible in the background. The main content area features sections for 'Develop', 'Analyze', and 'Research', along with a 'Popular Resources' sidebar on the right.
